WELCOME ADDRESS

Dear Esteemed Colleagues,

*It is with great pleasure that I extend a warm welcome to the fifth edition of **IBS DAYS**, set to take place in **Bologna, Italy** from **June 15-17, 2026**.*

*This event serves as a **platform to explore current and future perspectives within the dynamic realm of Irritable Bowel Syndrome (IBS)**. Our program encompasses a wide spectrum of topics, including epidemiology, genetic influences, the role of diet, microbiota, immune pathways, infectious triggers, diagnostic modalities, biomarker advancements, and therapeutic interventions.*

In response to the evolving needs of our community, we are proud to introduce also a postgraduate course tailored to equip attendees with practical insights into the diagnosis and management of IBS in everyday clinical practice.

*Our scientific agenda boasts an array of **State of the Art Lectures delivered in plenary sessions, complemented by engaging parallel sessions** featuring distinguished speakers from our esteemed Faculty. Moreover, we eagerly anticipate the **presentation of original research through both oral and poster sessions**, providing ample opportunities for scholarly exchange and collaboration.*

We envision this gathering not only as a forum for academic discourse but also as a catalyst for fostering camaraderie, stimulating dialogue, and nurturing collaborative endeavors that drive innovation and enhance patient care.

May our time together be marked by fruitful exchanges, enduring friendships, and collective strides towards advancing our field and optimizing patient outcomes.

Warm regards,

Giovanni Barbara
